More Than 1,000 Attend Final Cooking School Session Friday Evening At So. Mt. Fair Grounds

An almost capacity crowd of more than 1,000 Friday night at the South Mountain Fairgrounds brought to more than 5,400 the number of men and women who attended the sessions of The Gettysburg Times Cooking School held during the past two weeks.

More than 2,000, by conservative count, attended the three night sessions held in Gettysburg last week. More than 1,500 were present for the Littletown Cooking School classes earlier this week and more than 1,700 attended the session held Thursday and Friday nights in the South Mountain Fairgrounds Memorial Auditorium.

Fair officials, who are accustomed to seating audiences in the auditorium, estimated the crowd Friday night at 1,200.

Miss Madeline D. Linehan, lecturer for the seven sessions of the cooking school, paid compliments to her audiences in the concluding session Friday night. She said the schools were the finest in which she had participated and that the audiences were the most responsive that she has ever had.

Award 400 Prizes
Miss Linehan made and discussed, on the kitchen stage, such foods as broiled deviled sardines on toast, baked bean salad, apple noodle crunch, stuffed frankfurters, fish and potato casserole, cookie ice cream sandwiches, "new-fangled" peaches, baked bananas in curry sauce, curry sauce, and a banana milk shake.

Approximately 400 prizes were awarded Friday night. They included the displays which had been on the stage during all three schools.

Carl A. Baum, manager of The Gettysburg Times, thanked all those who attended the sessions, the participating merchants, Miss Linehan, her assistant, Miss Rebecca Harden, and Mrs. M. Elizabeth Wible, home economist for the Metropolitan Edison Co., for the success of the three schools.

G. Henry Roth introduced Miss Linehan, and then announced the prize winners, assisted by E. E. Wolf and Mr. Baum. Prizes were distributed by M. P. Hartzell Jr., Donald Manning, Cameron Hoffman, Thomas Adams, Ellsworth Divens, and others.

Want School Next Year
Questions and suggestions written by those attending the school indicated that there is a great demand for a similar school next year.

Wins Refrigerator
The grand prize, a Kelvinator refrigerator purchased from Cameron Hoffman, was awarded to Mrs. Ida E. Threling, Biglerville R. 1, who was undecided whether to have the prize placed in her home by Mr. Hoffman, or have it sent as a gift to a son in the Middle West.

Twenty-five food baskets, valued at \$25 each, were awarded to Joan Fidler, Aspers R. 1; Mrs. Lloyd V. Rau, Table Rock; Mrs. Janice Naugle, Gettysburg R. 4; John P. Mickley, Gettysburg R. 3; J. H. Heller, Biglerville R. 2; Mrs. Dorothy B. Winners of flour were Mrs. Ann Asovsky, Aspers, and Miss Caroline Redding, Gettysburg R. 2. Mrs. Fred W. Work Progresses On New Sewage Plant

Progress in the construction of Gettysburg's new \$359,000 sewage disposal plant is shown in these two photographs. The top picture shows the old primary sewage treatment plant before work was begun on the new one.

The small, square brick building in the left of the top picture is the old chlorinating house. Behind it are the present Imhoff tanks. In the foreground is a settling basin and back of it the drying bed. The present stage of construction work is shown in the lower photo, taken looking north toward the Hanover Rd. The old chlorinating building is shown in the right center of the picture. Walls of the primary settling tanks are in the left background. The new control building will stand just north of these tanks. In the left foreground are the foundations for the pumping station. In the right foreground is another settling tank and behind it the old drying beds and the new, and much larger drying beds at the rear, both resembling greenhouses. (Photos by Lane Studio)

Contractor Making Progress On Gettysburg's \$359,000 Sewer System Disposal Plant

Gettysburg's new sewage disposal plant, a short distance south of Hanover St., at the borough line, now under construction and expected to be completed and ready for use in October, will eliminate the pollution which has killed fish life in Rock Creek, bred mosquitoes and given off a much complained-of stench, engineers in charge of the work assert.

The primary and secondary units of the new disposal plant will purify completely the sewage and remove all solids. Water discharged into Rock Creek will be chemically and biologically pure after treatment, John H. Long, manager of the Gettysburg Municipal Authority, operators of the plant, said.

Raw sewage will enter the new plant through the "grit chamber." This is designed to catch sand and gravel and such objects as tin cans which may find their way into the sewers.

New Control Building
New step in the purification is in the control building, where the raw sewage undergoes its pre-chlorination before passing to the primary settling tanks. The control building will also house the office and laboratory, storage and utility room, chlorine room and toilet facilities and showers. It will be of one-story brick construction.

First settlement of solids takes place in the primary settling tanks, with their rotating blades and baffle plates. Then the sewage passes to the primary and secondary bio-filters. A "lift station," or pumping station, will lift the material into the secondary or final settling basin. Primary and secondary settling tanks are 31 by 80 feet. The bio-filters are 55 feet in diameter and five feet in depth.

Post-chlorination takes place after the sewage passes through the final settling tank. The sewage then goes to the "digester," and from this to the settling and drying beds, which are housed under glass, the building resembling a large greenhouse, 50 by 84 feet.

As a part of the new plant there will be a by-pass line to be used in the event of high water, when the flow coming into the plant exceeds its capacity. Robert Sheeler, plant operator, said that, during heavy, prolonged rains, the flow will double in a four-hour period.

The chemical action which takes place in the digester creates gas which will be used to heat the digester itself and provide heat for other buildings. The digester has a diameter of 40 feet and is 19 feet in depth.

The present primary plant has a 24-hour capacity of 700,000 gallons. The new primary and secondary units will have a capacity exceeding 2,000,000 gallons per 24 hours. The plant has been designed to care for the needs of a population of between 10,000 and 12,000.

When completed, the new plant will be landscaped. Lawns will be seeded and trees set out and a cyclone fence erected. Its estimated cost is \$359,000. Plans were drawn by Gannett, Fleming, Corddry and Carpenter, Harrisburg engineering firm. The contracting firm is the O. H. Hostetter Company, Hanover, with Ted Wolf in charge of construction for the Hostetter Company. Robert Reichert, Mechanicsburg, is the resident engineer during construction.

LAUDS SCHOOLS FOR GIFTS TO HEART APPEAL

The participation of Adams County schools in the 1952 Heart campaign was given high praise by Rev. Charles E. Held, vice president and campaign director of the Adams County Heart Association.

Rev. Held announced that contributions from 23 schools in the county aggregated \$378.83 and accounted for nearly one-sixth of the money raised during the campaign. "On behalf of the Adams County association I express sincere thanks to the students and principals of these schools. At the same time I congratulate them for their acceptance of the responsibility to recognize and actively assist in such an outstanding public service as the work of the heart association," Rev. Held said.

Chest Funds Worked Well
The campaign director expressed his enthusiasm for the policy adopted by several Adams County schools in encouraging support of all local drives through a school community chest.

One of the most successful school chest programs was conducted in East Berlin. The heart fund received \$76.50 from the total school chest contributions.

Rev. Held announced the following school contributions:

Reds Warned UN Will Not Make Further "Concessions"

MUNSAN, Korea (AP)—United Nations truce negotiators told the Reds today the U. N. Command has made its "final negotiatory effort" and suggested the Reds re-evaluate their behavior in the "tragic situation you are creating."

Vice Adm. C. Turner Joy, senior Allied delegate, bluntly declared in today's 50 minute session at Panmunjom:

"We have made our final negotiatory effort in the interest of an early armistice. We will not consider further concessions or counter-proposals."

The issue of how to exchange prisoners of war blocks an armistice.

Reds Won't Accept

North Korean Gen. Nam Il declared the Reds will never agree to the Allied over-all proposal of April 28. It calls for return of only those Communist prisoners who are willing to go back to Communist-held territory.

Fewer than half the 169,000 captured Reds and internees have expressed willingness to go back. Allied screening of prisoners showed this fact.

At Communist insistence, the armistice negotiators will meet against tomorrow at 11 a.m. (9 p.m. Saturday EST).

Joy reviewed the Allied offer of April 28. In it the Allies offered to withdraw their objections to rehabilitation of Red airfields if the Reds withdraw the nomination of Soviet Russia as a neutral observer during an armistice and insisted on voluntary repatriation of prisoners.

Usual Red Blast

"In return, we got the usual propaganda blast accusing us of mistreating their Red prisoners of war," Joy said. "It was full of invective and accused us of all the crimes in the book."

Joy told the Red general: "Your tactics, attitude and irresponsible words reveal an insincerity and ill-will which make increasingly difficult the consummation of an armistice ad lead all the world to suspect that you have never genuinely desired an armistice."

Storm Red Hill

SEOUL, Korea (AP)—An Allied patrol, using bayonets and small arms fire, today stormed a Red-held hill on the Western Korea front, killing 27 Communists and wounding 13.

The pre-dawn fight took place northwest of the Panmunjom truce site, an Eighth Army communique said. Both sides rushed in reinforcements during the scrap which broke off at 4:40 a.m.

Artillery aided the attack by knocking out two Red mortar positions.

For the fourth straight morning, a United Nations tank-infantry patrol raided Communist lines on the central front in the Kumhwa area. The Eighth Army said tank fire knocked out snipers and a machine gun.

Allied patrols on the Eastern front fought brief engagements with Red patrols in the early morning hours.

Allied land and carrier based planes Friday continued their relentless attack on Red supply lines in North Korea.

STATE COLLEGE
MAN TALKS ON
BEAUTIFICATION

The Women's Civic Council held its last business meeting of the season at the YWCA Friday night. The Sons of Union Veterans Auxiliary reported a change of representatives. Mrs. E. F. Strausbaugh replacing her daughter, Mrs. Grover Ridler, who has gone to Germany to join her husband. Mrs. Edith Bushman served as secretary in the absence of Mrs. Charles L. Lauver. Mrs. Frank H. Kramer reported that the Campus Club had decided to withdraw from the council, since it is a social group only, with no organization and no funds to pay dues. She said most of the members were members of other groups in the Civic Council.

Mrs. Guyon E. Buehler, president, reported that she had paid official visits to the Mary Gettys Rebekah Lodge and the Veterans of Foreign Wars Auxiliary during the month. In council work was discussed, that she was a guest at the social hour which followed the meetings. Six women's groups have been visited since January and visitations will be continued in the fall.

It was reported that a majority of the organizations of the council have submitted names of women who will work in the Retail Merchants Association information booth and others were requested to submit names immediately. Members were requested, as they visited other communities during the summer months, to make inquiries about the organized women's work there and bring back ideas.

At eight o'clock the business meeting was adjourned and Mrs. Donald E. Myers, chairman of the Trees Committee, was in charge of the program which followed on town beautification. She introduced County Agent M. T. Hartman who explained the work of the Agriculture Extension service and introduced A. O. Rasmussen, extension horticultural expert, Pennsylvania State College, who gave an illustrated talk on "Plant Pennsylvania to Help Plant America." He recalled that ten years ago he came to Gettysburg to speak to the representatives of 29 organizations on town beautification and some work was done subsequently but the program died.

Several members of the Women's Civic Council were present at that meeting and it was their desire to carry on this type of town improvement that brought Mr. Rasmussen back again. In response to inquiries as to his suggestions for Gettysburg, he referred to Russel Conway's "Acres of Diamonds," with the inference that "if our own back yards are cleaned up the 'diamonds' will be disclosed." He concluded with the statement that Pennsylvania's program is part of a nation-wide program to clean-up, paint-up and plant-up and offered the State College's help in any program the Women's Civic Council might decide to launch.

The council will not meet during the summer but will have a picnic or other social event some time in June. Mrs. S. Lester Scott is chairman of this committee.

There is no tendency to substitute incidentals for the fundamentals. Spirit Of Love "God is all in all lives, but only those who know God can love Him. This life of a love of God is normal for man. True religion is the spirit of love. Let not selfishness hinder the invasion of the Divine Spirit. Your heart is God's home, and the greatest love is prayer. Love is realizing God's presence and doing His will.

"Knowledge is important and scholarship essential, but both demand a knowledge of God, and are as nothing without the love of God. You have in your possession the power that saves souls, the Word of God. It is greater to be a servant of God than a king or founder of a dynasty. Let the love of God work out in you your God-given destiny."

Following Dr. Hoover's sermon, a testimonial to his years of service at the seminary, adopted by the Board of Directors at a recent meeting, was read by the Rev. Elmer P. EX-YANKEES IN SENATORS' FOLD SHUT OUT TRIBE

By RALPH RODEN
(Associated Press Staff Writer)
The New York Yankees seldom make a poor trade but at the moment it appears they pulled a "whopper" in dispatching Frank Shea, Jackie Jensen and Archie Wilson to Washington for Irv Noren. Jensen and Shea teamed up last night to lead the Senators to a 2-0 triumph over the league-leading Cleveland Indians. The victory moved Washington to within 1½ games of the Tribe.

Shea blew down the Indians on two hits and fanned nine in out-pitching Early Wynn. Jensen drove in both runs with a six-inning single.

Noren's Best Game
Noren played his best game since joining the Yankees, driving in two runs as the Bombers edged the Tigers, 3-2, in Detroit. Noren socked his first homer in the seventh and singled home the winning run with one out in the ninth.

Allie Reynolds permitted the Tigers seven hits as he pitched his sixth complete game and third victory.

Earl Harris and Satchel Paige combined to pitch the St. Louis Browns to a 2-1 two-hit 10-inning victory over Boston in a night game at St. Louis. The Browns collected only four hits off Mickey McDermott and Ellis Kinder, but three of the blows were by Bob Nieman who drove in both runs. Nieman homered in the eighth and doubled with two on in the 10th to win the game.

Dodgers Tie It Up
The Brooklyn Dodgers tied the New York Giants for first place in the National League, beating Pittsburgh, 6-4, while the Giants dropped a doubleheader to the upstart Chicago Cubs, 3-2 and 6-4.

Clem Labadie pitched seven innings of scoreless relief ball to pick up his first victory for Brooklyn. The Pirates played without Ralph Kiner who was out of the lineup with a pulled back muscle.

Bob Rush brushed the Giants back with five hits in the opener to end a five game New York winning streak. It also was Chicago's first triumph over New York since Rush beat the Giants on Aug. 2, 1951. Bruce Edwards drove home the winning run with a fly ball in the fifth.

Phils Win Overtime
Johnny Klippstein, who hurled only one complete game last year, yielded six hits, including homers by Hank Thompson and Bobby Thomson, in going the distance for the third time in the nightcap.

In night games, the Boston Braves trampled the St. Louis Cardinals, 8-3, and the Philadelphia Phils edged the Cincinnati Reds, 3-2, in 10 innings.

Gran Hamner singled with the bases loaded and none out in the tenth to beat the Reds and provide reliever Ken Heintzelman with his first victory. Herm Wehmeier was the loser.

The Braves jumped on rookie Wilmer (Vinegar Bend) Mizel for five runs in the second inning and that was more than Warren Spahn needed to post his second victory.

"WE HOPE, PRAY" MEYER REPORTS

By JOE REICHLER
NEW YORK (AP)—What is the feeling of a manager who watches his team lose 23 of 29 games?

How does a manager react when his team kicks away game after game with loose play, poor base running, misdirected throws and inability to hit in the pinches?

What does he think of when opposing clubs laugh and ridicule his collection of do-nothings?

Does he blow his top? Does he spend the nights pacing the floor of his hotel room? Does he harangue and rage at his players? Is he ready to toss in the towel and go back home to enjoy a quiet and peaceful life?

"Those are embarrassing questions," admitted Bill Meyer, the able pilot of the Pittsburgh Pirates whose National League cellar-dwellers find themselves 15 games behind the leaders after only one month of play.

"There is only one thing to do," he said. "You've just got to sit and take it—and hope for the best. You've got to work hard to see that the boys' spirits don't sink too low. You've got to try and convince them that things are bound to be better. Most of all, you've got to hope and pray. What else can a manager do?"

'Moneybags' Longden Has 4000th Winner

INGLEWOOD, Calif. (AP)—Johnny (Moneybags) Longden has set a new American record of 4,000 winners and today was embarked on a riding campaign for his 5,000 victory.

The 42-year-old English-born jockey, now an American citizen, bagged his 4,000th winner at Hollywood Park Thursday in the third race. He was aboard the public favorite, Fleet Diver, an unraced bay daughter of Devil Diver, and won going away by five lengths.

Fleet Diver was bred and is owned by Mr. and Mrs. John D. Hertz of Chicago, for whom Longden rode Count Fleet to victory in the Kentucky Derby, the Preakness and the Belmont stakes in 1943.

Longden is the second jockey to ride 4,000 winners. His friend, Gordon Richards of England, is well ahead with 4,431, but Longden's competition is tougher and he hasn't been riding as long as Richards.

FAVOR BLUE MAN AND SUB FLEET IN PREAKNESS

By GEORGE BOWEN
BALTIMORE (AP)—Two high-strung youngsters are expected today to wage a repetition of the battle their fathers put on in the Preakness nine years ago at Pimlico.

After the starting bell clangs at 4:17 p. m. EST, ten three-year-old thoroughbreds will battle it out, but the dope is for Sub Fleet and Blue Man to settle the issue.

Their fathers had it out in 1943 and so far it's Sub Fleet which could say "my old man licked you" and I'm going to give you the same."

Count Fleet whipped Blue Swords when the fathers of two of 1952's leading colts met in the Kentucky Derby. The offspring came together in the Louisville classic two weeks ago and it was the same story although neither won the race. Count Fleet's son, Sub Fleet, was second and Blue Man third.

Count Fleet and Blue Swords ran one-two again in the Preakness, and the handicappers have their sons figured the same way. But the way the 3-year-olds have been beating each other, it would be no great shock if one of the outsiders sneaked in.

Count Fleet's sons are gaining up on Blue Swords' kid in this 76th Preakness. Sub Fleet has two half brothers. One Count and Count Flame, in the mile and three-sixteenths tussle for a gross take of \$113,270.

Also slated to be in the starting stalls are Jampol, winner of the Preakness Prep here Monday, Armageddon, the one-eyed flash, Gushing Oil, Arroz, Handsome Teddy and Primrose.

They may be slinging mud at each other. The forecast is cloudy and more showers after last night's rain.

Besides the anticipated 30,000 spectators at the track, millions will be able to watch the Preakness on the CBS TV network. It also may be heard on the same radio network.

Interstate

By The Associated Press
The Lancaster Red Roses were out of the Interstate League cellar today at the expense of the Harrisburg Senators.

The Red Roses whipped the Senators 7-3 last night, ending a three-game Harrisburg winning streak and pushing the Capitol City club back into the league cellar.

The Wilmington Blue Rocks downed York 5-2, to climb within three games of the league-leading Hagerstown Owls.

Salisbury was leading Hagerstown 2-1 at the end of the third inning when the rains came, ending the game. It will be replayed as part of a doubleheader later in the season.

Elsewhere in the loop, Allentown replaced Sunbury in fifth place in the standings by downing the upstate team, 9-1. Allentown exploded for five runs in the fifth to break a 1-1 tie and clinch the victory.

EASTERN LEAGUE

By The Associated Press
It is a little cool for May in Albany—but the Eastern League Senators have no grounds for complaint.

The cold forced a postponement of the Albany-Elmira game last night, but the second-place Senators picked up a half game in the standings when the Schenectady Blue Jays put the chill on the pace-setting Reading Indians, 3-2.

The Senators are now only a single game out of first.

In other games, the Binghamton Triplets set back the Scranton Miners, 5-3, and the Williamsport Tigers beat the Hartford Chiefs 6-1.

Shippensburg gained sweet revenge for a previous 15-2 drubbing by nailing out the Gettysburg High School baseball team 4-3 in eight innings here Friday afternoon in a South Penn League game.

The game was a tight pitching duel between "Skip" Fisel of the locals and Stine and Ingram who divided the hurling for the Greyhounds. Fisel gave up but two singles and fanned 12. George Penn secured two of the Warriors' three safeties.

The Greyhounds' winning tally came on a walk to Rosenberry, fielder's choice, walk to Karper and an error.

Shippensburg scored in the first inning when Long was hit by a pitched ball, stole second, and scored after a fly to the outfield. A pair of misuses permitted Karper to score another run in the second.

Coach Shoemaker's team tied the count in the second via walks to Hankey, Bream and Fisel, a fielder's choice and an error. Each team scored in the seventh, the visitors' run resulting after Miller was hit by a pitched ball and stole two bases, scoring on a fielder's choice.

Fisel drew a base on balls in the last half of the frame and later scored when Penn got a hit on a high infield fly which Shippensburg permitted to fall safely.

Two more games remain on the Warrior schedule. Chambersburg will be met at Chambersburg Tuesday while the season will end with Delaware playing here Wednesday.

By GEORGE MATTHEW ADAMS

SHARE YOUR ENJOYMENTS
Never be hesitant about sharing your enjoyments. Doing so will enrich your own. Selfish enjoyments fade away so quickly, but those shared have a spreading power to them. They are cumulative.

I recall the incident of a great publisher of a Midwest American newspaper. He took a long trip, and because he was a lover of nature he kept calling his driver's attention to everything that he admired, whether it was a sunset, a beautiful landscape, or other interesting sights. He couldn't enjoy anything to its full without sharing.

The hobbyist loves to talk with other hobbyists—not because he wants to boast about his own pleasure, but because it increases his pleasure to do so, and that goes double as well. We can become misers in enjoyment as well as with money. But when we share our many enjoyments we get back additional enjoyment as a liberal dividend.

My entire life has brought me great enjoyment in books. That is why I so often, in these talks, try to inspire others to a love of books, for there is nothing more comforting than a worthwhile book. Books are enjoyment-friends. On a long trip in a car, railroad, or ship, if we remain alone, sharing none of our enjoyments, we end our journey only half enjoyed. To share it all with one or many is what frames it for our library of memory.

Travelers like to tell others about their adventures and the things they have seen and experienced, largely because they feel lonely with only their personal enjoyment of them. It is normal and natural for all of us to want others to share in our enjoyments, and we are happiest when we invite it.

We all have blessings beyond enumeration, but only as we share them do they become ripe and full of beauty. The poet Lowell once wrote that "the gift without the giver is bare." So is enjoyment without any sharing of it!

FLOWER NAMES
Some call them by their formal names, and very proud are they.

As garden intellectuals their wisdom they display.
It may be "Campanula" but when its name I tell
In my old-fashioned way I say it's Canterbury Bell.

"What lovely antirrhinums!" said a lady proud to me.
I answered: "Nice snapdragons," not intending rude to be.
The beautiful "eschscholzia" at seeding time I buy.
My mother called them "poppies" and forever so will I.

"Centaurea gymnocarpa," I am sure 'twould knock it flat.
If for good old Dusty Miller I should use a name like that,
Some may praise the "myosotis" when they see it in a plot,
But ever since I've known it has been "forget-me-not."

HOUSE VOTES RELIEF AND FREE OFFICE-SPACE

WASHINGTON (AP)—In a complete reversal of previous demands for belt-tightening economy, the house has voted substantial tax relief for itself and senators and free home town office space for congressmen.

The measure swept through the House Thursday as it passed the last of the annual domestic budget measures, a bill appropriating funds to operate Congress.

On all previous budget bills except one financing local river and harbor and flood control projects, the House had reduced allotments recommended by its Appropriations Committee. Demands for economy accompanied all the reductions.

The Congressional budget bill cleared by voice vote and went to the Senate with the distinction of being the first bill this year on which the House actually raised the allotments recommended by the Appropriations Committee.

Below Recommendation
The bill's total of \$62,391,780 was \$1,500,000 more than the committee had suggested, although about 10 million below Budget Bureau recommendations.

The tax amendment was offered by Democratic leader McCormack of Massachusetts and approved without a show of opposition or discussion. The bill's Democratic and Republican managers announced willingness to accept it and the other members went along.

An examination of the amendment by newsmen disclosed its intent, which McCormack verified. It says that for purposes of federal taxation, members of Congress have their place of residence in the state or district they represent. This means that their expenses while on official business away from home are deductible as business expenses for tax purposes.

Since Congress normally stays in session almost the entire year, a member could deduct the cost of his housing, meals, transportation, business entertainment, laundry and many other things while in Washington.

Newsprint Boost To Get Approval

WASHINGTON (AP)—Price Stabilizer Ellis Arnall said Friday the Canadian government has indicated it will approve a \$10 per ton increase in the price of newsprint. The boost was requested by Canadian manufacturers.

Arnall said Canadian representatives informed him the increase would go into effect June 15, boosting the price of newsprint from Canada, delivered in New York, to \$126 a ton.

He said he has objected to the Canadian government and has urged that the requested increase be denied.

About 90 per cent of the paper used by American publishers is imported from Canada.

Arnall said an increase would, of course, boost the cost of publishing newspapers and other publications in this country. The increase would be the second by Canadian manufacturers within a year.

Over the protest of Michael V. DiSalle, former Office of Price Stabilization director, the Canadian government authorized a \$10 per ton boost for newsprint effective last July 1.

Arnall discussed the newsprint situation at a news conference.

ADENAUER WINS ON REARMAMENT TREATY BATTLE

By RICHARD KASISCHKE

BONN, Germany (AP)—Chancellor Konrad Adenauer triumphed over his Socialist opposition in court Friday and won approval to go ahead next week with the signing of treaties to rearm West Germany and ally it with the West.

Earlier Friday Allied and German negotiators, after an all-night session, announced they would complete on Monday all but a few clauses of the proposed peace contract and that the Big Three foreign ministers would come here late next week to settle those points and sign the treaty with Adenauer.

Adenauer's legal victory came in the Federal Constitutional Court at Karlsruhe, which rejected a Socialist petition that the Chancellor be forbidden to sign the peace contract and its companion European Army Treaty to raise 400,000 German troops for Western Defense.

The Socialist also demanded that, if permitted to sign, Adenauer's signature be considered provisional until the outcome of another suit the Socialists have pending. This action demands that the Federal Constitution be amended to permit rearmament, a process requiring a two-thirds parliamentary majority which Adenauer could not obtain.

Nearer Agreement
Adenauer contends a bare parliamentary majority is required to ratify the treaties.

The court ruled his signing of the pacts would be legal, since they must be ratified by the Federal Parliament. That left it up to the Socialists to try defeating ratification.

Spokesmen for the Allies and Germans, meanwhile, announced after their 18-hour, all-night session they had reached agreement on 5 points in the contract, leaving only five to finish in their final meeting Monday.

Douglas Talks On Foreign Aid Policy

ATLANTIC CITY, N. J. (AP)—America's foreign aid program, now supporting "corrupt, reactionary regimes," should instead be directed at the peasants, says Supreme Court Justice William O. Douglas.

Speaking at the 18th biennial convention of the CIO Amalgamated Clothing Workers Union Wednesday, Douglas urged that the U. S. shift the aim of its foreign aid program from the landlord to the peasant.

This country, he told some 1,500 delegates, is supporting "corrupt, reactionary regimes, pouring money behind governments that are waging the wealth of America trying to underwrite the status quo."

"You are either for the landlord or you are for the peasants" in the Middle East and Asia, Douglas continued, adding that people in that part of the world want freedom and justice and opportunity. Technical aid programs will not be of much value in checking the spread of Russian imperialism there, unless backed by social and political ideas, he said.

Washington, D. C. Charles Sanders, who has also been living in Norfolk, accompanied the LaVantures' son to their home for a week-end.

Mr. and Mrs. Harold A. Smith were among those entertained during the past week at the annual banquet of the Community Pure Food Stores, conducted at the York Country Club.

CONGRESS CUTS OWN INCOME TAX HARMONIOUSLY

By JAMES MARLOW

WASHINGTON (AP)—In a spirit of perfect harmony the House Democrats and Republicans have voted for a device for knocking thousands of dollars off their own income tax. Not yours, theirs.

In this election year the men on Capitol Hill have called for economy in a stern tone that could be heard by the folks back home. And they have cut a slice off virtually every government spending Thursday, up came the annual bill covering the expenses of Congress for another year. Instead of cutting money for Congress, they upped it.

Supposed To Glare
The bill, prepared by their own Appropriations Committee whose job is to glare at every penny before deciding it can spend, called for \$62,391,780 for congressional expenses. The House increased this by \$1,500.

Then the House voted to let every one of its members—there are 435 seats—spend up to \$900 a year for office space back home if he can't find free space in some federal building there. Senators already have such an allowance.

If every member of Congress took advantage of this, the cost to the government would exceed \$477,000 a year.

In the midst of this came an amendment from Rep. McCormack of Massachusetts, leader of the Democrats. This amendment wasn't a sudden emotional notion by McCormack. It had been figured out by tax experts.

Reporters Blinkered
The Republicans promptly said they had no objections, which might indicate they thoroughly knew beforehand what was in the amendment. It passed without argument, much to the astonishment of the reporters in the gallery who seldom see the Republicans and Democrats agree on anything.

In fact, the reporters rubbed their eyes twice because they suddenly realized they didn't understand the full significance of the amendment which would let members of Congress deduct as business

PRISONER GETS OFFICER'S GUN, KILLS HIMSELF

PHILADELPHIA (AP)—An unruly prisoner Friday reached between the bars of his locked cell in a suburban jail, held a policeman fast with one hand and snatched his pistol with the other, then killed himself with a shot through the head.

The policeman, William Whalen, of the Upper Darby force, said he had gone into the cell block to try to calm the prisoner, whom he identified as Numa V. Malone, 5, a British subject from the Bahamas.

Arrested On Bus
Malone had been arrested four hours earlier for causing a disturbance on a Washington - bound Greyhound bus.

Upper Darby police said this was the sequence:

Malone, who described himself as a pharmacist on a visit to this country, boarded a Florida-bound bus at 30th Street Station and started quarreling with a woman companion whose identity was not learned. He then shifted to the Washington bus. At the Upper Darby Terminal, several miles distant, Malone cried out that he was being followed by men bent on violence. He flung open the emergency door of the bus, leaped out and ran down West Chester Pike, screaming and trying to open the doors of several parked cars and trucks. The bus driver and two policemen caught him after a chase of many blocks.

At the jail, again Malone grew noisy, broke a cell door. He was moved to another cell. As his outbursts continued, Whelan sent into the cell block to calm him and was grabbed.

Book Club Cannot Use Word "Free"

WASHINGTON (AP)—The Book of the Month Club has been told it may not advertise as "free" the books it sends to members as dividends.

The Federal Trade Commission (FTC) said so Thursday in announcing a 3-to-1 verdict against the book club practice. Commissioner Lowell Mason, in a bitterly worded dissent, challenged the other members for what he called "the urge to tell someone off."

The book club announced promptly it would appeal the ruling to the Federal Courts on the basis on Mason's dissent. Presumably a half dozen other book clubs which use similar advertising would be affected.

Book of the month club advertisement expenses all their expenses while living and working in Washington, away from home.

This would include the cost of food, transportation, hotel expenses, or expenses for renting or owning a house, tips and so on. He couldn't deduct for the expense of his family.

Found Guilty Of Robbery

PHILADELPHIA (AP)—A jury of eight men and four women returned a guilty verdict against Fred M. Lewis after less than two hours deliberation on seven charges of assault and robbery. Lewis, a 25-year-old Negro laborer, was charged with forcing a woman trolley operator from her vehicle at knife-point, criminally assaulting her twice and robbing her before she was able to break away. The attack occurred in the early morning of last January 17 in a deserted marsh area of Southwest Philadelphia.

The victim, Mrs. Katherine Parks, 30, identified Lewis earlier in the trial which began Tuesday but was not present when the verdict was read. She collapsed several times during her testimony. Lewis showed no emotion when the jury returned the verdict Thursday.

His defense presented a case of mistaken identity. Judge Joseph Sloane, who earlier had ruled out a kidnapping charge, delaying sentencing and gave defense counsel four days to file a motion for a new trial. Maximum sentence on all counts could bring Lewis a 34 to 78 year imprisonment term.

FARM BOY'S PAINTING WINS GOLD, GLORY

ROME (AP)—Severino Guidi, an 11-year-old farm boy who likes to paint beetles, is winning critical raves in Italian art circles.

Even better, it pays. Paintings and drawings that young Severino and his followers have produced sold well in a Rome show. They also brought nods of approval and words of praise from noted elder artists, among them writer-painter Carlo Levi.

Started in Rural School
It all started in a rural postwar school, between the Apennines, the Po River and the Adriatic. It is a tiny pink building with red tiles and green windows, where the children arrive after walking for miles between hedges full of flowers and beetles.

Through A Child's Eyes
One day Enrico Raggi, a 9-year-old child in third grade, wrote, "When I come to school from my home and walk among the hedges in blossom I often stop. I could almost laugh . . . so beautiful the colors are."

The teacher, Federico Moroni, asked the class: "Why don't you try to paint the colors?"

They did. It was fun—and every one of the 10 pupils developed different talents. Severino Guidi, one of the eldest in the classroom, developed a taste for elaborate designs, mostly plants, snails, and beetles.

One of his paintings which attracted most attention in the show in Rome was entitled "The Dead Lizard." It represented the green body of a lizard, surrounded by hundreds of different kinds of beetles. A scene he had seen in a ditch near the school, Severino explained.

Paintings Accepted
During his summer vacations, Moroni came to Rome with a small suitcase and a large roll containing the drawings and paintings of his pupils. Two galleries turned him down, but the Chiurazzi Art Gallery accepted the paintings.

The director of the painting section, New York born Antonio Virduzzo, organized the show. Artists and tourists flocked in to visit the exhibits. The show later moved to Florence, where a fresh bunch of paintings were on display.

Moroni will never have to worry again about getting enough watercolors, brushes, and paper for his pupils. Of the original 78 paintings, 50 were sold in the first week of show in Rome.

PRAVDA BLASTS POW INCIDENTS

MOSCOW (AP)—Pravda Friday unloaded an expected blast at alleged U. S. Army atrocities against North Korean and Communist Chinese war prisoners.

The Communist party organ declared Brig. Gen. Charles F. Colson, negotiating with Red prisoners to free brig. Gen. Francis T. Dodd from the Koje Island compound last week, "confirmed the fact of beastlike treatment of war prisoners." The Americans, Pravda charged, had outdone Hitler with "their sadistic methods."

Terming Koje "Death Islands," Pravda said the American military is using torture, violence and mass murder in dealing with war prisoners.

The paper declared Colson in effect admitted that in "American camps for war prisoners, there reigned a regime of tortures and violence not to be distinguished from the regime of Hitler's death camps."

OIL STRIKE IS "COOLING OFF"

WASHINGTON (AP)—The simmering oil strike started to cool off Friday.

Government officials, eyeing what one of them called a "pretty critical" shortage of aviation gas, set up 15 bargaining sessions between union and oil company negotiators across the country.

O. A. Knight, leader of a coalition of unions which have been on strike for 16 days, said in an interview that "we have called off the strike" and most strikers should be back on the job soon.

Before that could happen, the 22 unions and 90,000 strikers involved would have to sign hundreds of local bargaining agreements with more than 70 oil companies.

Some tentative agreements, worked out on the basis of a wage stabilization formula, were reported last night. Others were awaited today.

Tito Tightens His Grip On Trieste

BELGRADE, Yugoslavia (AP)—Premier Marthal Tito's government all but annexed the Yugoslav-occupied zone of Trieste Thursday with military decrees tightening the Communist nation's hold on the disputed Adriatic territory.

Tito's orders followed his bitter attacks that Yugoslav interests were being sacrificed by a British-American decision last week to give Italy a hand in ruling Trieste's Zone A, which the two Western powers have governed since World

Other honorary degree recipients include: Dr. Louis P. Hoyer, superintendent of public schools in Philadelphia, a degree of doctor of laws; Dr. Preston A. Barba, retired head of the German department at Muhlenberg, a degree of doctor of letters; Maurice Brown, curator of the Hawk Mountain Sanctuary Association in Kempton, Pa., a degree of doctor of science.

ELECTRIC EYE WATCHES BLOOD TRANSFUSIONS

COVINGTON, Ky. (AP)—John Brick, 38, has been able to move only his arms and head for the past 12 years. But his brain has been working overtime.

This victim of arthritis has just completed an electric eye device which some physicians say will have an important part in cases where blood transfusions are necessary.

Invents Transfusion Aid
Brick, a patient at St. Elizabeth Hospital, has invented a device which flashes the signal light over a patient's room when the transfusion stops before completion.

Occasionally the flow of blood will stop during a transfusion, Brick said he noted from his own experience. His invention, for which a patent is being asked, provides that an electric eye flashes the room light on when such a thing occurs. Often a patient is too weak to signal the nurse, Brick said.

Studied Electronics
He did not just begin on the invention when the idea took form. He was not equipped to do so. So he put in some time studying electronics and the functions of radios and television sets.

He earned a living repairing radio and television sets even though confined to the hospital. Between times, he worked on his invention. His next project, he said, is development of an idea for diagnosis of heart conditions.

Brick has high hopes, too, of walking again.

He gained the interest some time ago of the Rev. Morris Coers, pastor of a Baptist church here, whose radio and television shows have brought help to many sick, crippled and needy.

Since then, a surgeon has removed Brick's hip joints and replaced them with stainless steel cups. Now he is able to sit up in a wheel chair part of the day. He believes he will walk soon.

Col. Mahurin Shot Down By Communists

U. S. FIFTH AIR FORCE, Korea (AP)—The Air Force announced Friday that Col. Walker M. Mahurin, one of America's greatest fighter pilots, was shot down over Korea Tuesday.

The 33-year-old Sabre jet pilot who downed more than 25 planes in two wars has not been heard from since he radioed:

"I've been hit by flak and I think I'm on fire."

The Air Force said it didn't know whether he parachuted.

Mahurin, from Fort Wayne, Ind., was pioneering the use of Sabre jet fighters in dive bombing. That was one of his jobs as a combat group commander of the Fourth Fighter Wing.

Man Convicted On Five Perjury Counts

SCRANTON, Pa. (AP)—Maurice Rose, 54, of Philadelphia, was found guilty in Federal Court on five counts of perjury.

The jury of eight men and four women deliberated less than three hours Thursday before returning the verdict. Rose was charged with giving false testimony before a Federal Grand Jury regarding a \$10,000 check he was alleged to have received from the York painter and Paperhanger School, at York, Pa., a G. I. training school for which he was furnishing supplies.

U. S. Dist. Judge John W. Murphy deferred sentence pending receipt of a report from the federal district probation office.

MUCH MARRIED BLONDE TELLS HOW IT'S DONE

HOUSTON, Tex. (AP)—Betty Cooper, the platinum blonde of 39 who has been married 13 times to 11 different men, has this advice if a girl wants to get a husband: "Honey, just be yourself."

"You can't be something you aren't, and you can't change people," says Betty, and that's why her marriages went on the rocks.

"Every boy I married tried to change me."

Betty, brown-eyed and full-figured, who wears her platinum hair short and curled, married first at 15, while she was a student at Oklahoma Baptist University at Shawnee, Okla.

Her former husbands include a one time southwest middleweight boxing champion, a star athlete, FBI agent, shoe man, band leader, automobile distributor, machinery company executive, bottling company route manager and an undertaker.

No Shrinking Violet

When Attorney Gabriel Nahas filed petition for divorce for Betty against Joe Calamusa, bottling company route manager, the revelation that it was her 13th trip to court to shed a mate suddenly catapulted her into the limelight.

Words roll out of Betty's scarlet lips with machine gun rapidity.

"Now, Honey, I don't want any more publicity. I didn't get married for publicity and I don't get divorced for publicity. I got married every time, thinking 'This is it.' You don't get married unless you think it's going to work."

No shrinking violet, Betty says she likes to have a good time.

"I like to dance and have company and when you marry and are told 'you can't do this' why then things just don't work out."

Betty, about five feet, seven inches tall and the "right weight" won't talk about her former husbands. Says she:

All "Nice Boys"

"They're all nice boys. That's why I married them. If things didn't work out, well, they just didn't work out. Maybe it was me, some."

She is reluctant to talk about herself, saying:

"I've got a good job (selling costume jewelry) and I don't want to take a chance on doing anything that would hurt me on it. Besides, all this publicity might hurt me the 13th time."

Reminded that she had been married 13 times already, she said, "Oh yes!"

Is there any secret to attracting men and marrying?

"Just be yourself," says Betty, adding:

"I'm like any other girl. I was raised in a good family, have a good job and a nice career opportunity and go to church."

The ancients thought sulfur was a symbol of hell because its fumes had a suffocating, choking effect when it was burned.

Happiness in car ownership is a nice balance between what you have and what you can't have.

Give Them A Break
Because they are out of sight the car's universal joints are among the most neglected on the car. The goes for driving as well as servicing. An operator will always worry about the rear tires or the car in general if the clutch is grabby or if chattering develops when he starts off, yet somehow fail to realize that the universals are being punished. He usually concentrates on the idea that modern joints need little attention, yet invites trouble by that very concept. Some joints have boots (or leather or synthetic materials) to keep out water and dirt and these must be replaced when worn. Some joints still need lubrication. Some that are packed for a period of some 30,000 miles of driving may still need occasional lubricating of the slip sleeve. There's a plug for this. Remove it and install a grease nipple for the period of the greasing.

Assured Of The Best
One of my good friends who reads this column tells me that he recently attended a discussion regarding brakes and that he was informed that entirely too much inferior brake fluid is around. Reliable shops of course cannot afford to risk using anything but the best, even though they may have to give it away, but I still think it's smart to carry a small can of the brake fluid sold and recommended by the company that made your car. This is always useful in an emergency. And with it you are always sure.

What's Your Trouble?
Q. What can be done to check loss of oil around worn valve guides? The engine is a valve-in-head, and oil is working down around valve stems too freely. H. J. L.
A. You can install small metal "umbrellas" over the valve stems.

Q. We are replacing a worn pinion gear. Is it necessary to change the ring gear too? Wm. L. K.
A. Always replace both gears that mate, otherwise they will be noisy.

Q. There is a peculiar knock in the motor of my car. It doesn't sound like a piston slap, and isn't heavy enough to be a loose bearing. It isn't frequent enough to be a bad tappet. Any ideas on this? W. F. C.
A. I suggest that you check the fan belt which may have a badly worn spot.

Q. A friend of mine has puncture-proof inner tubes on his car. He was told to check the tire treads every month so that any sharp objects such as nails, glass, etc., can be pulled out. I do not understand why this is necessary. I've seen demonstrations where tires went over a dozen nails that went right through the tire, yet the inner tube sealed itself. J. C. B.

A. Yes, but those nails used for the demonstration were in a board and not allowed to remain in the tire. Unless sharp objects are withdrawn from the shoe they may eventually tear the inner tube. That could cause a blowout or sudden flat.

Q. My car has a lot of marks along the edges of the fenders and on the bumpers which I cannot seem to remove with polish. What can be done in a case like this? G. B. N.

A. I do not know, but at least this will serve as a lesson. The marks probably are the result of damage from salts used on the roads last winter. In the future, make it a habit to have the car washed more often.

Q. I do not need it much at this time of year, but I can't seem to get any heat from the heater of my car and I'm wondering why. I like to use the heater just to keep the fan from getting sluggish. T. H. N.

A. The water level in the radiator may be too low, or the heater fan may not be running at all. A clogged heater hose will also check output of heat.

Q. If you have fussed with keys for a looking cap on the gas tank filler pipe you can appreciate why I am enthusiastic over the idea of designing a cap that used a combination cap instead of a key. This would keep water from leaking into the tank since there would be no opening for a key. I can see a lot

of advantages. J. L. L.

A. You'll be interested to know that I use such a combination cap on my own car. As far as I know it is not being manufactured now. This cap works very well, but of course I must unlock it myself. A copy of the combination is carried in the glove compartment.

Mr. Russell will answer questions regarding the safe care and operation of your car. Just address him at 254 Fern St., West Hartford 7, Conn., and enclose stamped, self-addressed envelope for a personal reply. There is no charge.

one 110-mile highway permitted the Allies between Berlin and the West. They have waved back patrols preemptorily, mysteriously allowed them to pass, called it all "a regrettable mistake," then clamped

down again.

Allied officers here were dizzy from the Soviet fast-change policy and would not even speculate on what was behind it.

PHILADELPHIA (AP)—Raising tropical fish is a hobby that can easily get out of hand, explained Jules Corotis to Zoning Board of Adjustment officials.

They multiply so fast you have to find ways to get rid of them, he said. He has been selling them and even giving some away to neighbors. He seeks a use permit in connection with his fish enterprise in the basement of his home.

Convertible Stops
Commie Harangue
NEW YORK (P) — Actions often speak louder than words—even in the propaganda battle between East and West in Berlin.

In this case it was the action of a convertible top being run up and down several times which turned the attention of a Berlin crowd from the harangue of a Communist speaker. When he had diverted their attention,

FIRE BLACKENS TWO BLOCKS IN WARNER STUDIOS

BURBANK, Calif. (AP)—An area two blocks square in the vast Warner Brothers studio lay in blackened ruins today after a fire that caused damage officially estimated at 1 1/2 million dollars. Destroyed by the flames yesterday was the studio's Sound Stage 21, largest in the movie industry, several large exterior sets and much valuable equipment and scenery. The fire started during the lunch hour and burned over eight acres before being brought under control two hours later. A series of explosions punctuated the spread of the flames. Firemen said the blasts came from air compressor tanks that power wind machines and other equipment. Thousands of spectators were attracted by the huge, spiraling cloud of black smoke. Stage 21 was built originally for Errol Flynn's "The Sea Hawk," and many memorable scenes have been shot there. Humphrey Bogart killed a whole boat crew, including Edward G. Robinson, in "Key Largo"; Bette Davis let her twin sister drown there in "A Stolen Life"; Flynn recently dived into the sea there, looking for sunken treasure in "Maru Maru"; and Doris Day and Gordon MacRae paddled a canoe in "On Moonlight Bay," filmed on the stage.

New Secret Project Rivals Atomic Bomb

DALLAS (AP)—A project rivaling the atomic bomb in importance is being developed by Columbia University, an official of the university believes. Dr. Grayson Kirk, acting president of Columbia in the absence of Gen. Dwight D. Eisenhower, said here last night the work is being done for the U. S. Navy. He spoke before a meeting of Columbia's alumni chapter. Columbia pioneered work on the atomic bomb a little over a decade ago, he said. He refused to elaborate on the work being done now.

THUG INQUIRES FOR HIS VICTIM

NEW YORK (AP)—Two hours after he slugged a 67-year-old woman and robbed her apartment, a young man last night called back on a dime pay phone and asked for his victim, Mrs. Fannie Belleson. Her daughter, Mrs. Kate Landsdorf, took the call and reported he told her: "I'm the young fellow who robbed your mother. I'm sorry. I hope I didn't hurt her. I had to do it. I'm hungry. I'm an orphan. I come from an Oklahoma reform school."

Mrs. Landsdorf told him her mother was all right and asked him why he didn't get a job. "I can't because of my police record," he replied. "They (the police) won't give me a break if I go to them." He went on with his story. Then said: "I gotta go now—good bye—I'm going to mail back the things I took." Mrs. Belleson and her daughter today watched the mail for the \$200 worth of loot taken from the apartment.

Abandon Spuds To Break Black Mart

PHILADELPHIA (AP)—Restaurants and hotels are being urged to stop serving potatoes as a means of smashing "a growing black market" in the scarce commodity. William H. Harned, president of the Philadelphia Hotel Association, Thursday said the city's 28 members of the association intend "to offer rice, macaroni, spaghetti, grits and extra vegetables to make up for the potatoes."

Two Lost Dogs Return Together

LONG BEACH, Calif. (AP)—Jim Harris brought a cocker spaniel named Patsy recently for his daughter, Charlene. Patsy waited until the family fell in love with her and then disappeared. Harris then purchased Toy, a collie, to help mend his daughter's broken heart. Toy also disappeared, but he came back — with Patsy tagging along.
